

PERIODS DON'T STOP FOR PANDEMICS.

We are on a mission to tackle period poverty and redistribute menstrual hygiene products to those in need.

PERIODNOW.ORG

Nearly half of women (46%) could not afford to buy both food and menstrual hygiene products during the past year.*

Sponsor**

Through the generous support of our outstanding partners, PeriodNow.org is able to supply much-needed feminine hygiene products to girls and women in need. Sadly, the COVID-19 pandemic has only increased the need for these products and no girls or women should ever have to go without period products. **PERIOD!**

Nearly two thirds (64%) of women were unable to afford needed menstrual hygiene supplies during the previous year. Approximately one-fifth of women (21%) experienced this monthly. Many women make do with cloth, rags, tissues, or toilet paper; some even use children's diapers or paper towels taken from public bathrooms.*

These necessary products are not covered by SNAP or any other welfare program.

PERIODNOW.ORG

Our corporate sponsors not only increase their branding power in a highly visible campaign beginning in NYC that will evolve to support the needs of girls and women needing menstrual products in hard-hit areas affected by the pandemic. Our program will supply menstrual products along with informational materials on endometriosis. Endometriosis affects 7 million American girls and women and is on the verge of becoming a public health crisis. More importantly, our sponsors become a part of our on-going efforts to better the community and bring solutions and a better quality of life to those who need it.

PeriodNow sponsorship offers the opportunity for corporations to interact on a personal level with the communities they serve during unprecedented and challenging times.

Our lives, both personal and professional, have come to a standstill while our elected officials and medical professionals take on the challenge of stopping and then reversing the spread of the epidemic.
